Why This Matters

California Prop 65 is one of four regimes regulating nail polish — and ‘The Toxic Trio’ is named by all four.

⚠️ WARNING

This product can expose you to chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

— P65Warnings.ca.gov

The Toxic Trio

Enforcement Is Aggressive

Enforcement comes from Prop 65 bounty hunters, DTSC Priority Product compliance, CDPH cosmetics reporting, and Cal/OSHA salon-air limits.

Penalties Are Real

Non-compliance leads to financial penalties, legal costs, relabeling, and product removal from shelves.

AB 2762 Is Now Law

Since Jan 1, 2025, California has banned intentionally added DBP, formaldehyde, toluene & PFAS in all cosmetics — no threshold, no exceptions.

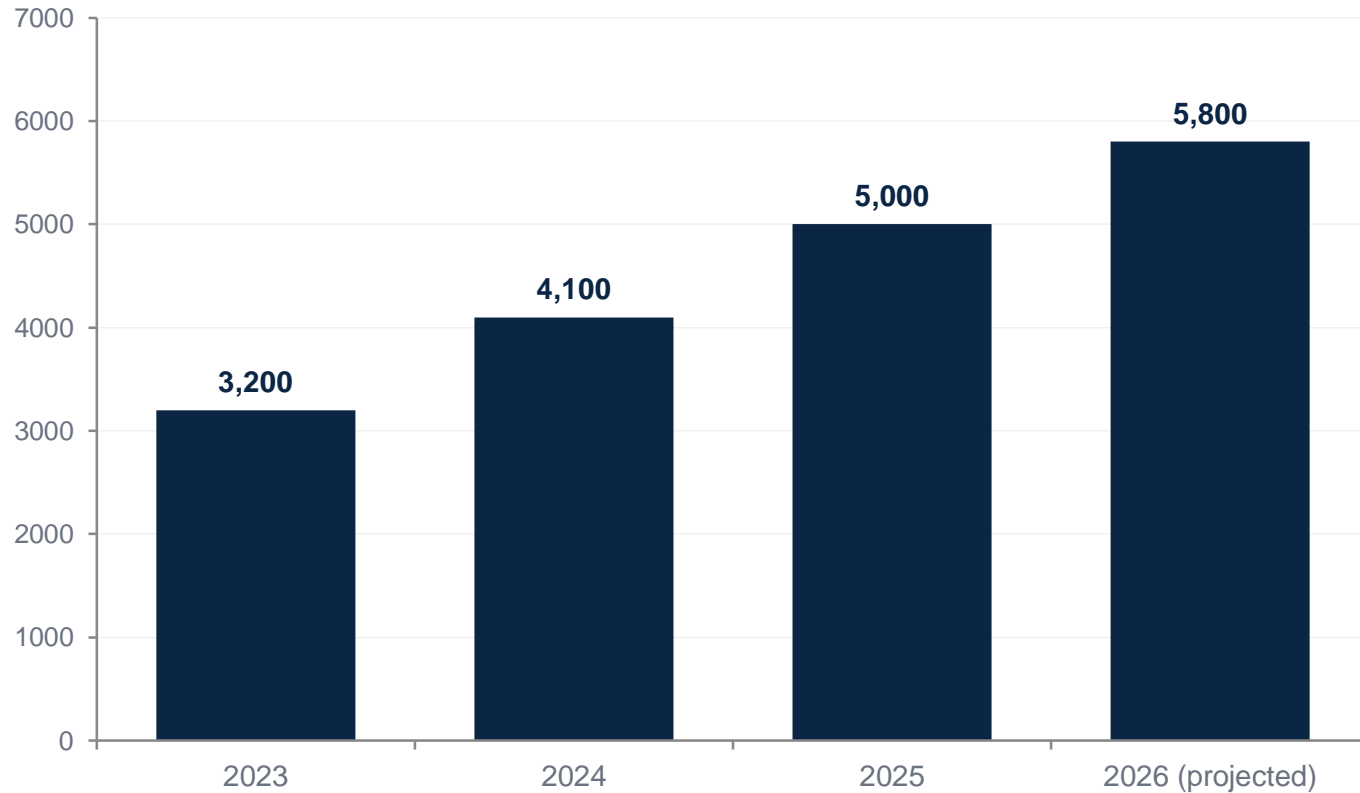

Documentation Is Your Defense

Without a compliance system, most companies settle. A defensible record is what ends threats cheaply.

Prop 65 Enforcement Trends (2024–2026)

Enforcement is increasing, not slowing down.

Annual Prop 65 NOVs Issued

Source: OAG 60-Day Notice database; industry-category tallies.

100 ppm

DTSC Toluene Limit

Alternatives Analysis Threshold for toluene in nail products under the Priority Product regulation.

\$2,500

Per-Day Penalty

Maximum Prop 65 civil penalty per violation per day — plus attorneys' fees and mandatory reformulation.

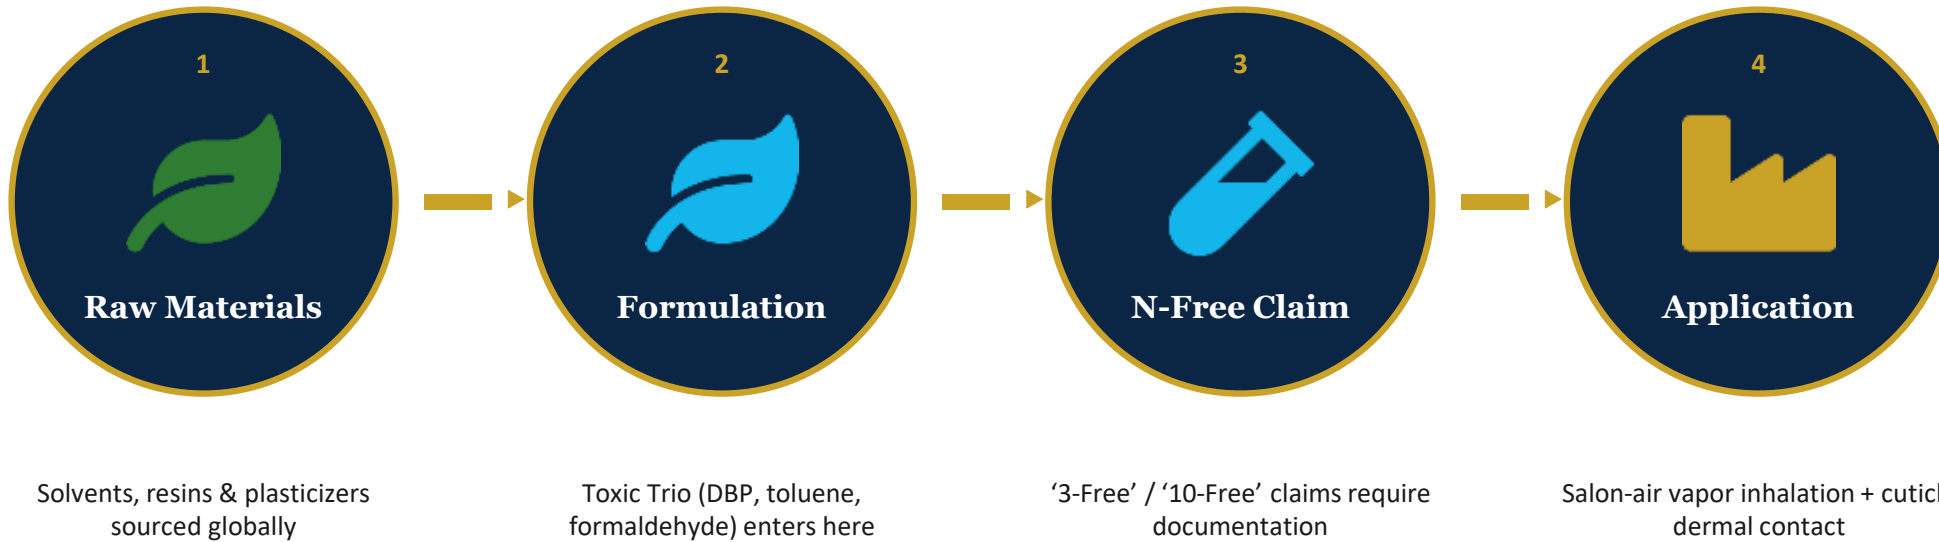

Cosmetics Under Fire

Nail, Hair, Skincare

DTSC's October 2025 nail-product toluene testing report confirmed that the category remains under active regulatory surveillance.

Why Nail Polish Is at Risk

Listed chemicals enter at formulation — and both salon workers and consumers inhale them during application.

'N-Free' marketing is not a compliance program — it is a claim that must be verifiable.

Prop 65, AB 2762, AB 2771 (PFAS) and the DTSC Priority Product regulation all apply simultaneously to the same bottle.

Business Impact of Non-Compliance

A Prop 65 action hits the balance sheet long before a verdict.

60-Day Notice of Violation

Plaintiff's attorney files with the AG; clock starts immediately on response.

Settlement Exposure

Typical settlements \$20K-\$100K+ per action — plus attorney fees.

Relabeling & Reformulation

Product pulled, warning labels added, ingredient sourcing reviewed.

Retail & Distributor Pressure

Buyers demand evidence of compliance before reinstatement or renewal.

Most companies settle — not because they're guilty, but because their documentation is weak.

Why Prop65Compliance.com

Compliance-focused. Not a law firm. System-based — not one-time testing.

Compliance-Focused

We don't litigate — we build the system that prevents litigation.

System-Based Approach

Testing alone doesn't protect you. A documented program does.

Managed by Consultare Inc. Group

Operational oversight from a dedicated compliance management team.

Built on SystemsBuilder.pro

Artifact-based system, document control, and AI-assisted workflows.

OUR PROMISE

**We build and manage
your defensible
compliance system.**

*So when a 60-day notice arrives,
you already have the answers.*

What We Deliver

An end-to-end Prop 65 compliance program — not a one-time report.

**Product Risk
Assessment**

**Chemical Testing
Oversight**

**Exposure
Evaluation**

**Compliance
Determination**

**Warning Label
Strategy**

**Supplier
Compliance Program**

**Documentation
System**

**Ongoing
Monitoring**

Each component is documented, traceable, and audit-ready.

Core Technical Components

The compliance stack underneath every determination we issue.

Toxic Trio + PFAS Testing

GC-MS quantification of DBP, toluene & formaldehyde below 100 ppm thresholds, plus targeted PFAS and methacrylate panels at ISO 17025 labs.

Inhalation & Dermal Exposure

Use-frequency, vapor-generation, and dermal-absorption modeling against Prop 65 safe-harbor levels and Cal/OSHA PELs.

Supplier COA Verification

Solvent, resin, plasticizer & pigment supplier COAs plus DTSC Priority Product Notification records retained and produced on demand.

Batch-Level Compliance Review

Every lot is logged, reviewed, and tied to a compliance determination on file.

Warning Label Determination

Clear 'warn vs no-warn' logic documented and defensible against private enforcement.

Supply-Chain Compliance Control

Prevent the issue upstream — before it reaches your label.

Prevent exposure issues before they reach the consumer — and the courtroom.

The SystemsBuilder Approach

Artifact-based compliance — pay for structure, not repetition.

ARTIFACTS vs RECORDS

You pay for the structure — not the records.

Build once. Use forever.

Example:

ARTIFACT (you pay)

Testing Program

One document that defines how all testing is conducted, reviewed, and documented.

↓ Generates unlimited ↓

RECORDS (no added cost)

Unlimited Batch Test Results

Every lot tested fills out the same framework — no new artifact needed.

→ *Scalable, predictable, cost-efficient.*

How It Works

A three-phase program. Setup once. Monitor continuously.

01 STEP Setup

- Product intake & scoping
- Risk identification by category
- Testing plan creation
- Documentation structure

02 STEP Implementation

- Lab coordination (ISO 17025)
- Exposure & MADL calculations
- Compliance determination
- Warning-label decisions

03 STEP Monitoring

- Monthly compliance oversight
- Batch & lot review
- Trend analysis
- Audit-ready reporting

Setup Pricing – One-Time Investment

Build your defensible Prop 65 compliance system.

COMPLIANCE SYSTEM SETUP

\$1,500
up to 3 finished products

+ \$150
each additional finished product

One-time investment to build your system.

SETUP INCLUDES

Risk assessment

Testing program design

Exposure evaluation framework

Documentation system setup

Compliance determination structure

Monthly Monitoring – Ongoing Oversight

Continuous compliance. Keep your system alive.

ONGOING COMPLIANCE OVERSIGHT

\$500
per month — up to 7 finished products

+ \$50 / month
per additional finished product

Keeps you continuously compliant.

MONITORING INCLUDES

Batch / lot test review

Compliance verification

Monthly reporting

Trend analysis

Cancel anytime. No long-term contracts.

Testing Monitoring Fees

Per-event oversight — pay only when your product is tested.

\$35

per testing monitoring event

Per lot / batch — covers lab-report review, threshold comparison, compliance determination & documentation update.

WHAT THE \$35 COVERS

- Lab report review
- Threshold comparison vs MADL
- Compliance determination
- Documentation update

IMPORTANT — LAB FEE EXCLUSION

Laboratory testing fees are NOT included.

Testing is conducted by independent ISO 17025 accredited laboratories.
All lab costs are billed directly to the client by the laboratory.

We provide oversight and compliance review — not laboratory testing services.

Pay only for actual testing events • No markup on lab fees • Independent results ensure defensibility

What You Receive

Every client gets a defensible, audit-ready document package.

Batch Compliance Review Reports

Per-lot review with pass/fail determination, threshold comparison, and reviewer sign-off.

Monthly Summary Reports

Rolling snapshot of all testing events, compliance status, and open action items.

Compliance Monitoring Logs

Date-stamped log of every decision made — the backbone of defensibility.

Supplier Tracking Records

Attestations, COAs, risk ratings, and corrective actions by supplier.

Audit-Ready Documentation

Packaged for OAG inquiries, retailer audits, and legal counsel on 24-hour notice.

Built for Defensibility

Documentation is the difference between a quick close-out and a six-figure settlement.

Documented Due Diligence

Every decision has a record, a reviewer, and a date.

Verified Lab Testing

ISO 17025 independent results — no conflicts of interest.

Traceable Decisions

Supplier → material → batch → determination — fully linked.

Structured System

Not ad-hoc — a real management system reviewers recognize.

Critical for lawsuits • Retail audits • Regulatory inquiries

OPTION

DIY Option — SystemsBuilder.pro

Prefer to manage it yourself? The same artifact library, à la carte.

COMMUNITY LIBRARY

\$1
per artifact

Build your own system on your own terms.

Logs & Templates

Managed Service vs. DIY

Same system. Different execution — you choose who drives.

MANAGED SERVICE

by Consultare Inc. Group

- Hands-off compliance execution
- Expert-managed monitoring
- Monthly reporting delivered
- Best for: growing brands without in-house QA capacity

DIY (SystemsBuilder)

at SystemsBuilder.pro

- Self-managed execution
- \$1-per-artifact library access
- Internal team runs the program
- Best for: teams with existing compliance capability

Same system. Same artifacts. Same defensibility. — You choose who operates it.

Your Risk Profile

Every one of these factors increases your exposure — independently.

#1 ENFORCEMENT TARGET

Cosmetics

Cosmetics are the only category with both Prop 65 warnings AND an outright intentional-addition ban (AB 2762).

TOP LITIGATION DRIVER

Toxic Trio

DBP, toluene & formaldehyde are the named nail-polish chemicals in every California cosmetic regulation since 2011.

FOUR-REGIME RISK

Nail Polish

Nail polish sits at the intersection of Prop 65, AB 2762, AB 2771, and DTSC Priority Product regulation — the most regulated cosmetic category in California.

STRICT ENVIRONMENT

California

Most aggressive private-enforcement regime in the United States.

Your product is already in a high-risk category — even if you've done nothing wrong.

CALL TO ACTION

Don't wait for a 60-Day Notice.

Start your Prop 65 compliance system today.

MANAGED COMPLIANCE

Let us manage it for you.

- End-to-end Prop 65 system setup
- Ongoing monitoring & oversight
- Audit-ready documentation
- Expert-managed execution

DIY LIBRARY

Build it yourself.

- \$1-per-artifact library access
- Community programs & policies
- Forms, logs & templates
- Run it your way, in-house

“Build it yourself — or let us manage it for you.”
